

Solution for Enterprise

Overview

Whether your business is a small office, medium-sized enterprise or a large corporation, you can get the right VoIP solution for your business. FreeGo VoIP solution is proud to offer the best next-generation of business telephony systems. By deploying any one of Allywll's VoIP gateways series, remote offices can easily be connected to corporate headquarters via the Internet/VPN, allowing free interoffice calling instead of expensive long-distance calls between offices.

Applications

Banking & Finance, Healthcare, Insurance, Manufacturing, Transportation & Logistics, etc.

Highlights

- Implement cost-effective and highly adaptable VoIP solution on their existing IP infrastructure
- Easy to deploy, manage and maintain
- Smoothly connect co-workers anywhere in the enterprise, save communication cost largely
