

EIT200 Series Next-generation IP Phone

EIT200 IP phone

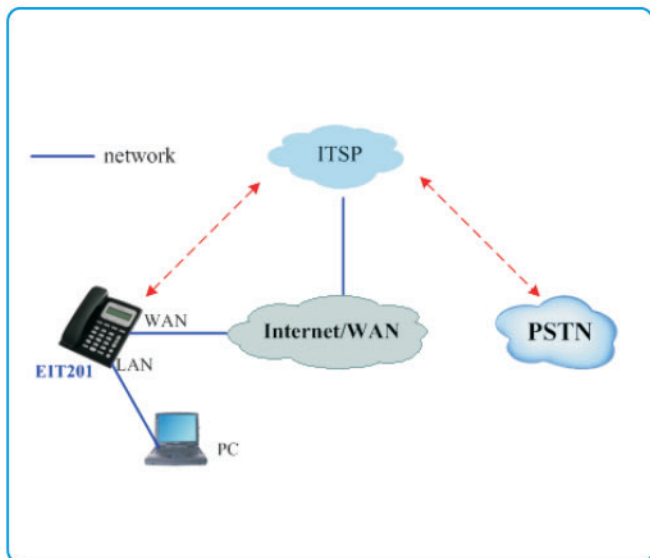

EIT201 IP phone

Overview

EIT200 series, a next-generation business IP phone, is an affordable, yet powerful telephone with 3-way conference and an ergonomic high-end handset and keyboard, ideal for SOHO, small and medium size enterprise, etc.

EIT200 series provides 2*10/100Mbps Ethernet ports which are used for router, so that the phone can share the network connection with the computer. You do not need an additional network point for the phone.
